CAREER OBJECTIVE

To start my career in software development by applying my programming, problem-solving, and database Knowledge to build efficient applications while continuously improving my skills through real-world projects.

EDUCATION QUALIFICATION

- **Bachelor of Engineering – Computer Science Engineering**
CMR Institute of Technology, Bengaluru
9.07, 2027(Pursuing)
 - **Pre-University Course - Science**
St. Joseph's Indian Composite Pre-University College, Bengaluru
94.83%, 2023
 - **10th Standard**
Kiaralee Nilayam Central School, Bengaluru
92.6%, 2021
-

TECHNICAL SKILLS

Programming Languages: C, Python, Java, Dart, JavaScript

Operating System: Windows, Ubuntu

Web Technology: HTML, CSS, PHP, ReactJS

Mobile Application Development: Flutter

Backend & APIs: FastAPI, REST API development

Databases: MySQL, MongoDB, PostgreSQL, SQLite

Cloud & DevOps: AWS, Docker, Git, GitHub, Jenkins

PROJECTS

- **STREAM SPHERE**
 - Developed a full-stack video streaming platform with user authentication, video upload, and multi-resolution playback using **Flutter** frontend and **FastAPI** backend.
 - Designed a microservice architecture with **AWS S3, SQS, ECS Fargate, PostgreSQL**, and **Redis** to enable scalable video storage, processing, and metadata caching.
 - Implemented an automated video transcoding pipeline using **Docker, FFmpeg**, and AWS cloud services to generate adaptive streaming formats (**DASH**).
 - Built **REST APIs**, secure pre-signed upload workflows, and **CDN-ready** streaming delivery, ensuring efficient media handling and optimized user experience.
- **HERD AI**
 - Built an offline-first livestock biometrics application using **Flutter, TensorFlow Lite**, and **SQLite**, enabling on-device cattle identification, breed verification, and record management.
 - Developed a **MobileNetV2** embedding model that generates **128-dimensional feature vectors** and performs open-set cattle identification through **cosine similarity matching**.
 - Trained and deployed an **EfficientNet-B0** classifier for **34-breed verification**, integrating dual-model inference.
 - Designed a local livestock information system for maintaining vaccination records, disease history, and health observations without cloud dependency.

- **PUBLIC-EYE**

- Built a full-stack civic issue reporting platform using **React.js, Supabase, PostgreSQL/PostGIS**, and **Leaflet.js**, enabling users to submit infrastructure complaints through an interactive map-based interface.
 - Designed and implemented **real-time data synchronization**, authentication, image storage, ensuring instant propagation of issue status updates across public and administrative dashboards.
 - Developed location-aware features including **GPS-based mapping, reverse geocoding, AI-assisted image classification** and spatial data management.
 - Implemented **role-based admin controls** and a kanban workflow system for issue lifecycle management, efficient monitoring and resolution of citizen-reported incidents.
-

CO-CURRICULAR ACTIVITIES

- **Hackathons**

- Participated in Apticode Showdown 2.0, a coding-aptitude competition conducted by the Department of Training, CMRIT, 2025.
- Participated in ByteBattles 1.0, the Ultimate Algorithm Challenge, organized by the Department of Training in association with Trendy Tech, CMRIT, 2025.
- Participated in Smart India Hackathon, 2025, organized by the Government of India & MHRD's Innovation Cell.
- Participated in DSA Hackathon, 2025, organized by Department of CSE, CMR Institute of Technology.
- Participated in Social Hackathon, 2025, an innovation driven hackathon organized by CMR Institute of Technology.

- **Online courses and certifications**

- Certified in "Programming, Data Structures, and Algorithms using Python" from NPTEL, September 2025
- Certified in "Oracle Java Foundations" from Oracle, February 2025
- Certified in "SQL Masterclass" from Udemy, June 2024
- Certified in "The Complete Flutter Development Bootcamp with Dart" from Udemy, November 2024
- Certified in "The Front-End Web Developer Bootcamp" from Udemy, December 2023

- **Seminars**

- Attended seminar on "Application of AI in Robotics" organized by Ignitarium, gaining exposure to cutting-edge AI techniques applied in automation and robotics.
- Attended seminar on "Career Guidance on Data Analytics" organized by the Department of CSE gaining insights in the blooming field of Data Science.

- **Industrial Visit**

- Visited Microsoft India (R&D) Pvt. Ltd., Luxor North Tower, Bagmane Capital, Bengaluru – Attended a session on AI and IoT integration and learned about Microsoft Azure's role in supporting intelligent cloud-based innovations.
-

AWARDS AND ACHIEVEMENTS

- Received the Merit Award (4th Place) in the MedhaRank AI Challenge 2026 for excellence in AI engineering, problem-solving, and engineering judgment.
 - Secured a place in the Top 5% nationwide in the NPTEL course "Programming, Data Structures, and Algorithms using Python (Jul–Sept 2025)", earning the Silver Elite Certificate.
-

PERSONAL DETAILS

Date of Birth	: 26th June 2005
Gender	: Male
Nationality	: Indian
Linguistic Competency	: English, Hindi and Kannada
Hobbies	: Listening to Music, Playing Football and Solving Puzzles
